

Oil & Gas Industry Marketing Paid Internship/Contract Job Opportunity in Houston

Intern Candidate Profile:

- Communications/Advertising/Marketing Major
- Intern must be knowledgeable of the following software programs:
 - Microsoft Power Point (proficiency required)
 - Adobe Creative Suite (proficiency in Photoshop, Design and Illustrator)
 - Adobe Premiere Elements.
 - Flash is recommended

Scope of Business to Business Marketing Internship:

- Create a PowerPoint presentation with a marketing edge that will be used for training adults.
- Edit existing and/or create text, photographs, videos and animation for this highly technical presentation.
- Design brochure for this training program.
- Design hand-out materials for students.
- Design website pages that project a consistent image of the training program.
- 3-6 months part-time position with the possibility of an extension offer for the right candidate.

We have an outline that will need to be followed for the training with focus on design and assembly. This intern will work with the marketing team primarily but will interact frequently with sales and engineering.

Timeline:

- Spring 2012
- Email Resume and Cover Letter to HR@Gagemaker.com

Company Profile:

Gagemaker LP
712 East Southmore Ave.
Pasadena, TX
713-472-7360
Contact: HR@Gagemaker.com

Gagemaker LP develops and manufactures innovative precision mechanical inspection equipment for the Oilfield, Automotive and General Machining industries. Recognized as

the leading provider of Tapered & Straight Thread Measurement Gages; API Products, Tubing and Casing Gages, Engineering Software and Calibration Software & Equipment, **Gagemaker** products are used in countless facilities around the world.

Gagemaker's commitment to actively developing new products along with their superb customer service continues to set the industry standard. Thirty years ago, the introduction of **Gagemaker's MRP-2000 Crest Diameter Gage** forever changed thread measurement in the oilfield industry and today the MRP is a standard tool used by most companies around the world.

Dedicated to solving the problems of its customers and offering solutions that benefit the industry is the philosophy that has made Gagemaker the company that it is today.
