

Dial Indicators

Digital Indicators

HOW TO ORDER

1. Select the model number for the dial or digital indicator, based on the gage.
2. Indicators for a special application are available. Call for a quotation.

Gagemaker sells replacement indicators for all Gagemaker products, as well as indicators for many special applications. These instruments conform to AGD standards, which ensures excellent performance and interchangeability. The indicators provide quality construction and durability and contain a hard coated, scratch resistant crystal face.

Indicators include various resolutions and travel, depending on the application. Both inch and metric graduations are available. The smallest graduations for inch are: .0001", .0005", and .001", while the smallest graduations for metric are: 0.005 mm and 0.01 mm.

Features

- Conform to AGD standards
- Provide repeatability and accuracy
- Offer durable and quality construction

Replacement Dial Indicators – Gagemaker Products

Model No.	Gagemaker Gage Model	Travel/Res.
